

Greystone Centennial Middle School ***Student Citizenship Agreement***

We believe that every student has the right to feel safe at school. The emotional and physical safety of students is necessary in order for student learning to occur. As citizens of GCMS our students have the responsibility to contribute to a safe school community. This can be achieved when students follow our one school-wide expectation:

Students will treat self, others and school with dignity and respect.

Students who are unable to follow this school expectation will be involved in a discipline process that is intended to:

- keep student dignity intact
- help the student learn
- involve the support of parent/guardians as partners
- remain confidential and private

**Please reference more detailed information about student discipline in the Student Handbook.*

By signing below, you acknowledge your understanding and agreement of our Student Citizenship Agreement at Greystone Centennial Middle School.
